

FOX-AFRIC
Investments Ltd.

**THE COMPANY THAT SUPPORTS YOUR
BUSINESS PROCESSES**

ABOUT US

FOX-AFRIC Investments is a company with experience in the management and technological processes of the business and government sectors, which provides its clients with specialized consultancies, tailored advice, and auditing, for the enhancement of your products or services, generating growth in business, organizational and economic in a continuous, efficient and consistent way.

We have important international strategic partners and allies such as the **Center for Innovation and Technological Development (CIDT) Country of Knowledge** (www.paisdelconocimiento.org) and the African company **4J Investments Ltd.** (www.4-jinvestments.com) that allow us to meet the objectives set in the projects with our clients.

WHAT DO WE DO?

Driving Sustainability with impact

Our field of action is Specialized Consulting and Project Management, with a focus on the areas of Commerce, Trading, Management, Marketing, Sales, Strategy, Market Research, and Business Plans.

We seek to strike a balance between staying competitive, driving innovations, and preserving our environment with long-lasting partnerships for sustainable development while adding immense value to our customers and society at large.

TRANSPORT

Our company **Fox-Afric Investments** is providing tailored solutions for public and private passenger transport with different models of certified high quality, initially for the West African market from our headquarters in Ghana, for which we have our business partner **BUSSCAR** from Colombia.

OIL AND GAS TRADING

With our partners and allies in **Nigeria, Ghana, and Venezuela** we efficiently manage your requirements, according to your needs and provide tailored solutions according to your operational priorities.

BUSINESS CONSULTING AND INVESTMENT FUNDS

At **Fox-Afric Investments**, we are experienced enough as specialist investment consultants to provide our investor clients with comprehensive planning and proper consulting on the best investment opportunities in West Africa, from our headquarters in Ghana.

We do it from the evaluation of the client's current financial status, considering their needs, risk tolerance, and short, medium, or long-term goals, in order to achieve optimal results based on market analysis, having suitable personnel for this and experience to Diagnose – Design – Implement – Audit the respective comprehensive investment plans.

Our company **Fox-Afric Investments Ltd.** is perfect for those entrepreneurs who have investment funds and are looking for solid advice on critical decisions related to their needs and interests.

↑↓ IMPORT / EXPORT

With the Free Trade Market in the **African Union**, the enormous potential is opening up in Africa for the import of products for domestic consumption, and also for the creation of new products that can be exported. **Fox-Afric Investments** is already importing food products from Colombia to Ghana, and we challenge ourselves to grow.

In West Africa, **Ghana** is a regional distribution center with a high commercial profile. It allows 100% foreign ownership of companies (with capital requirements) and has free zones where goods traded with other countries are exempt from customs duties. The population of Ghana is 31.1 million and is increasing by 2.1% per year. Its middle class is small but growing.

CONSTRUCTION

We provide our clients with complete solutions with the highest quality standards in all the different phases of civil works projects, based, among other things, on our deep knowledge and experience of public procurement and interested third parties.

AGRICULTURE / RANCHING

In **Ghana** and other African countries, there are deficiencies in agricultural and livestock production, and we are developing projects for the implementation of comprehensive solutions for agro-industry and livestock from **Fox-Afric Investments** with our partners and allies from Colombia and Brazil, appropriating the best technologies existing and already tested in these countries.
